

With effect from 03.01.2022, all passengers coming from non-at-risk countries by International Flights to West Bengal will have to mandatorily undergo RTPCR (10% of the passengers) and RAT test (rest 90% of the passengers) on arrival at their own cost. Those found positive on RAT Test have to undergo RTPCR Tests as may be required by the Health Authorities.

All passengers arriving have to mandatorily pre-book the test before boarding to reduce the waiting time on arrival.
